

I am strongly against the NAB's petition 04-160. For the past 14 years, I have commuted through rural Arizona. Util XM was introduced, I would drive much of the time without any radio signal. For the past two years, I have thoroughly enjoyed listening to radio. I am able to listen to real artists, talk shows, etc that I wish to listen to. I am not required to listen to the chosen "artists" that Clear Channel has selected. After listening to XM for two years, I am unable to listen to commercial radio for any length of time. XM's traffic reports are much better and more reliable than what I have ever heard on commercial radio.

Again, I urge you to allow satellite radio to continue to provide services to all who wish to subscribe.

Thanks,  
Chris Brainard
